Praise for Casey Golden Trio

'The Casey Golden Trio eschews typical rhythmic and melodic terrain, crafting a very tightly spun dynamic where the lines between head and improvisation are constantly blurred.' **All about Jazz (US)**

'It is rare that a musical vision is so complete, and completely of its own world.' **Australianjazz.net**

'You're not apt to notice the complexity since the flow is so liquid.' **Something Else! (US)**

'A trio that clearly don't live in the past.' **Marlbank.net (UK)**

'High skill levels backed up by expansive imaginations.' **Sydney Morning Herald**

'The band knows how to ingeniously combine dazzling strokes of creativity with majestic melodies like no other.' **Jazzviews (UK)**
